After publication of article “Effect of Gamma Irradiation on Color Characteristics and Biological Activities of Ethanol Extract of *Lonicera japonica*” in the Journal of the Korean Society for Applied Biological Chemistry (2012) 55, 111–114, we became aware of the fact that Table 1, Figures. 1, 2, and 3 were duplicated from another article “Effect of Gamma Irradiation on the Biological Activities and Color Changes of Ethanol Extracts *Lonicera japonica*”, published in *Nutraceuticals & Food* (2003) 8, 85–88”. In light of these problems, the authors in consultation with the journal Editors, have decided to retract article “Effect of Gamma Irradiation on Color Characteristics and Biological Activities of Ethanol Extract of *Lonicera japonica*” from Journal of the Korean Society for Applied Biological Chemistry.

The online version of the original article can be found under doi:10.1007/s13765-012-0019-y.
